

EVAN ADITYA CHANDRA

COMPUTER SCIENCE AND ELECTRICAL
ENGINEERING GRADUATE

+62 82312283399

Evanaditya18@gmail.com

North Jakarta, Jakarta

ABOUT ME

Computer Science and Electrical Engineering graduate from the dual-degree program from Sampoerna University and the University of Arizona. Experienced in full-stack web, mobile, and hardware-integrated software development using **Angular, Golang, PostgreSQL, Kotlin, C, and C++**. Highly adaptable and eager to leverage diverse technical skills and scientific analysis to build functional solutions that streamline workflows, simplify complex tasks, optimize and enhance operational efficiency.

ACHIEVEMENTS

- Achieved a cumulative GPA of 3.9/4.0
- Recipient of the Full Scholarship from the Putera Sampoerna Foundation
- Co-authored the IEEE published paper titled "A Two-Stage LSTM-LightGBM Framework for Time-Series Traffic State Prediction" for the 2025 Tenth International Conference
- Registered as a co-creator for the Intellectual Property (HAKI) titled "Sistem Pelacak Performa Objek Bergerak Berbasis Sensor Ultrasonik dan Inframerah dengan Mode Real-Time dan Ghost"

TECHNICAL SKILLS

- Programming Languages: TypeScript, Go, CSS, HTML, JavaScript, Java, Python, Kotlin, C, C++, SQL
- Web Frameworks and Architecture: Angular, REST API
- Cloud and Databases: Vercel, Supabase, PostgreSQL
- Artificial Intelligence: Computer Vision (YOLO, RepVGG) and Time-Series Forecasting (LSTM, LightGBM)

SOFT SKILLS

- Proficient at English
- Time-Management
- Problem Solving
- Basic Computer Skills
- Critical Thinking
- Communication

EDUCATION

2022 - 2026	University of Arizona GPA 3.9/4.0 Bachelor of Science in Computer and Electrical Engineering
2022 - 2026	Sampoerna University GPA 3.9/4.0 Bachelor of Computer Science
2019 - 2022	Saint Theresia High School

EXPERIENCE

May – Aug 2025

IT System Transformation Intern | PT Surya Madistrindo, Gudang Garam Subsidiary

- Independently developed two full-stack internal web applications (State Manager and Project Management System) using Angular, Golang, PostgreSQL, Supabase, and Vercel.
- Managed the complete Software Development Lifecycle (SDLC) by gathering user requirements directly from stakeholders, designing Entity Relationship Diagrams (ERDs), and translating business requirements into technical solutions.
- Engineered responsive and reusable frontend components in Angular, including custom date/period pickers, drag-and-drop interfaces, expandable cards, search functionality, interactive dashboards, and more.
- Designed and implemented RESTful backend services in Golang, handling authentication, business logic, role-based authorization, workflow management, and email notification services.
- Designed normalized PostgreSQL databases, created SQL procedures/functions, and optimized database structures based on evolving business requirements.
- Developed features supporting request lifecycle management, project planning, task assignment, bug tracking, Gantt chart visualization, workflow automation, and role-based access control.
- Integrated file upload/download capabilities, email notifications, search and filtering, progress tracking, and dynamic reporting features to improve operational efficiency.
- Conducted API development and testing using Postman, performed debugging, refactored reusable services/components, and documented APIs and SQL functions.
- Deployed and validated cloud-hosted applications by deploying frontend and backend services on Vercel and managing PostgreSQL databases on Supabase, resolving environment-specific deployment issues.
- Collaborated closely with supervisors and end users through iterative feedback cycles, continuously enhancing application usability, functionality, and performance.

2022–Present

Freelance Crew Member | Alegria Event Organizer

- Assisted in the setup and execution of weddings and corporate events.
- Supported the successful execution of events for organizations and companies, including events Rakornas DP PLN, PT Grahadi, and QnQ Gala Dinner.
- Coordinated venue preparation, including stage setup, seating arrangements, decorations, audiovisual equipment, and event materials.
- Worked closely with event coordinators, vendors, and venue staff to ensure smooth event operations and adherence to schedules.
- Assisted in guest registration, ushering, and VIP hospitality to provide a professional attendee experience.
- Monitored event logistics and promptly resolved on-site operational issues to maintain seamless event flow.
- Ensured all event equipment and materials were properly organized, handled, and stored before and after events.
- Maintained high standards of professionalism, teamwork, and customer service in fast-paced event environments.
- Adapted to changing client requirements and last-minute adjustments while meeting strict event timelines.

2023 – 2024

Core Member | Google Developer Student Club, Sampoerna University

- *GDSC stands for Google Developer Student Clubs, which are university-based, student-led communities supported by Google designed to help students bridge the gap between theory and practice*
- Planned and organized technical workshops, seminars, and community events focused on software development and emerging technologies.
- Coordinated with organizing committees, speakers, and participants to ensure the successful execution of student-led events.
- Collaborated with fellow core members to manage event logistics, communications, and participant engagement.
- Contributed to fostering an active developer community by supporting knowledge-sharing and hands-on learning initiatives.

2023

Conference Leadership Committee | North Jakarta ASAK

- *ASAK is a division under the Roman Catholic Archdiocese of Jakarta that provides financial help for catholic children in need.*
- Coordinated multimedia resources and technical equipment required for the event
- Ensured the continuous availability and optimal functionality of all multimedia systems throughout the conference duration
- Collaborating within the Committee to manage technical infrastructure and support overall conference operations
